Re the Isme Bennie file-

I couldn't do it

Paul Gratton could not do it.

Comedy Central tried to stop us from doing it

Isme Bennie did it. Bravo! now owns Monty Python. Starting on air ASAP.

License fee/ price was never the problem.

Lawyers and agents and talent approvals and other things were the problem.

Six months of stickhandling and negotiating and.....

This is a big coup for us. The series has not played Canada in over 15 years and requires all kinds of individual approvals.

Based on the success of the Python Movies, we will have a big hit on our hands.

If you see Isme, give her a congrats.
